

- SKETCH ...

- RDV => SMALL

- CSS

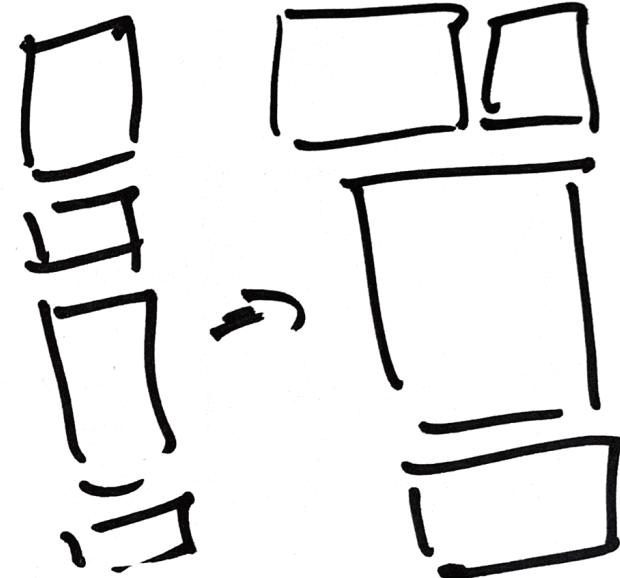

1) TYPOGRAPHIC GRID

html {  
}

font-size:

line-height:

3

2) MODULAR SCALING

(headings)

- CSS (con't)
- RDV  $\Rightarrow$  larger (so slow!)
  - line-length: TOO LONG???

media query: min-width

small, additive OR transformative  
adjustments

(SKETCH ...)

# FLEXBOX

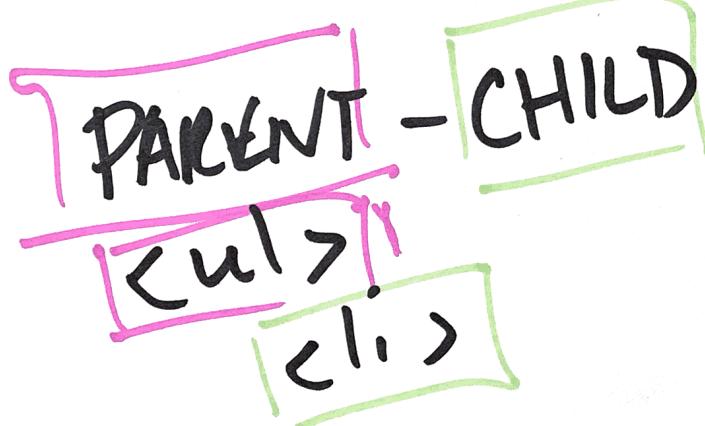

vs.

# CSS GRID

## Content

(how it behaves)

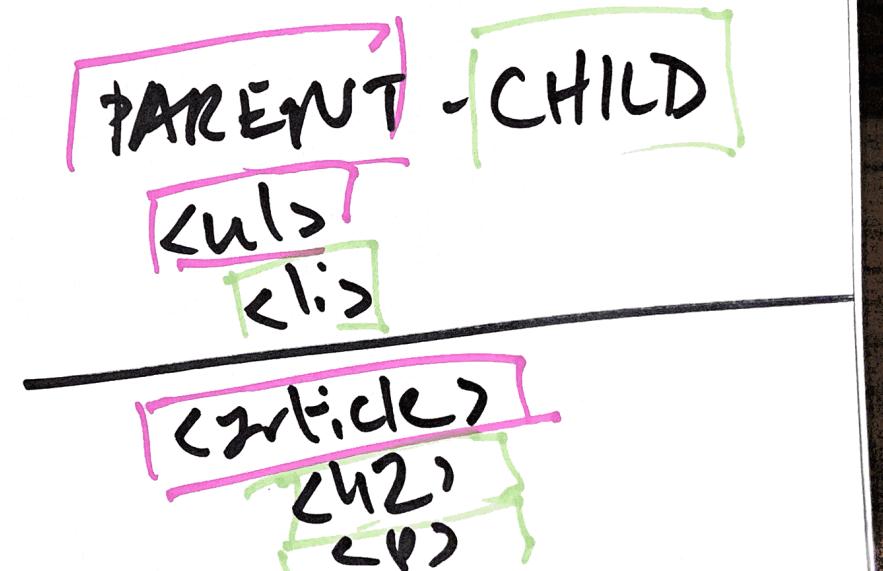

- Container (flex)
- Item (flex items)

## Layout

(where things go.)

- Grid
- Item (grid items)

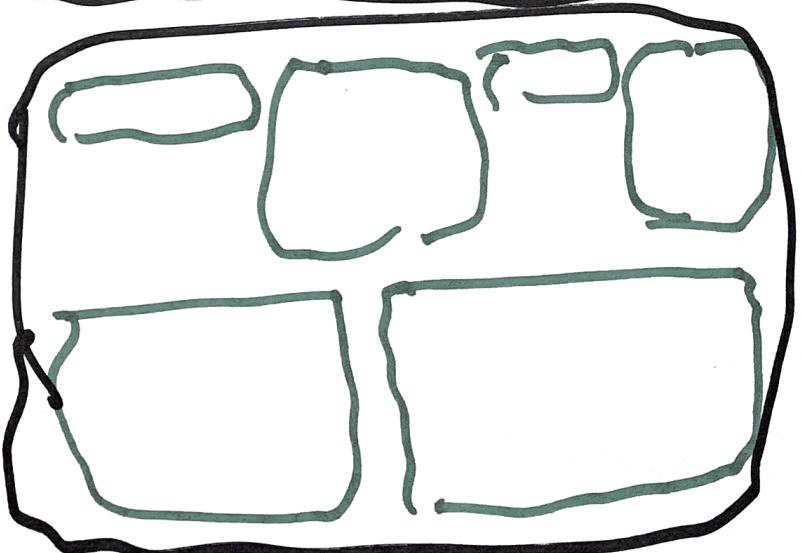

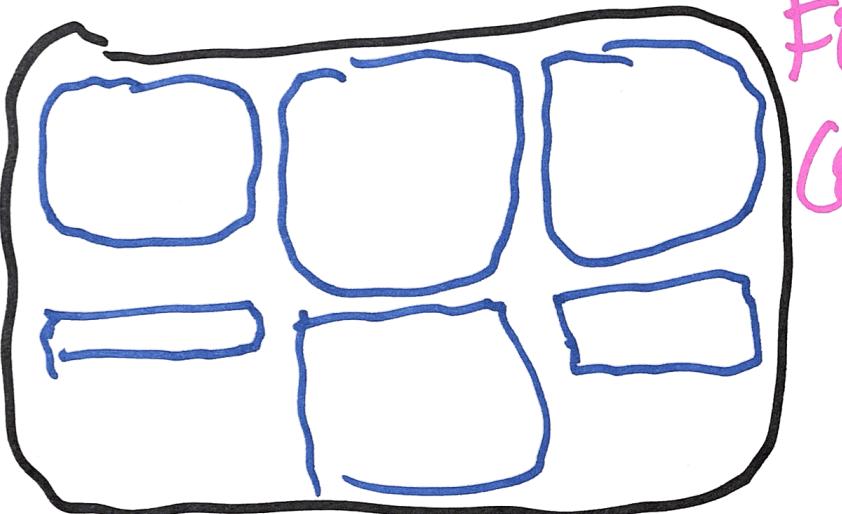

# FLEXBOX

vs

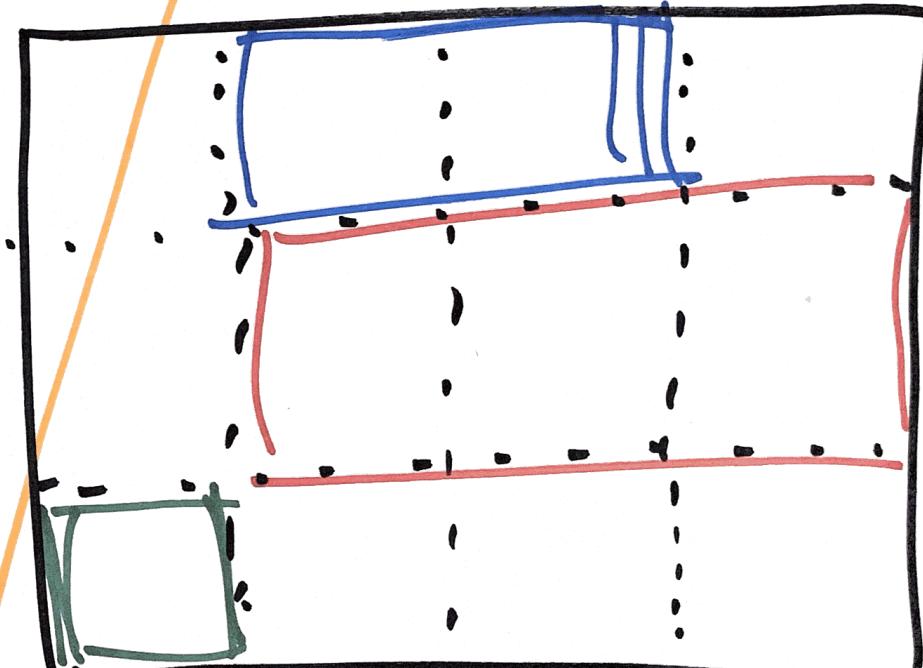

# CSS GRID *(cont.)*

`display: flex;` RULES

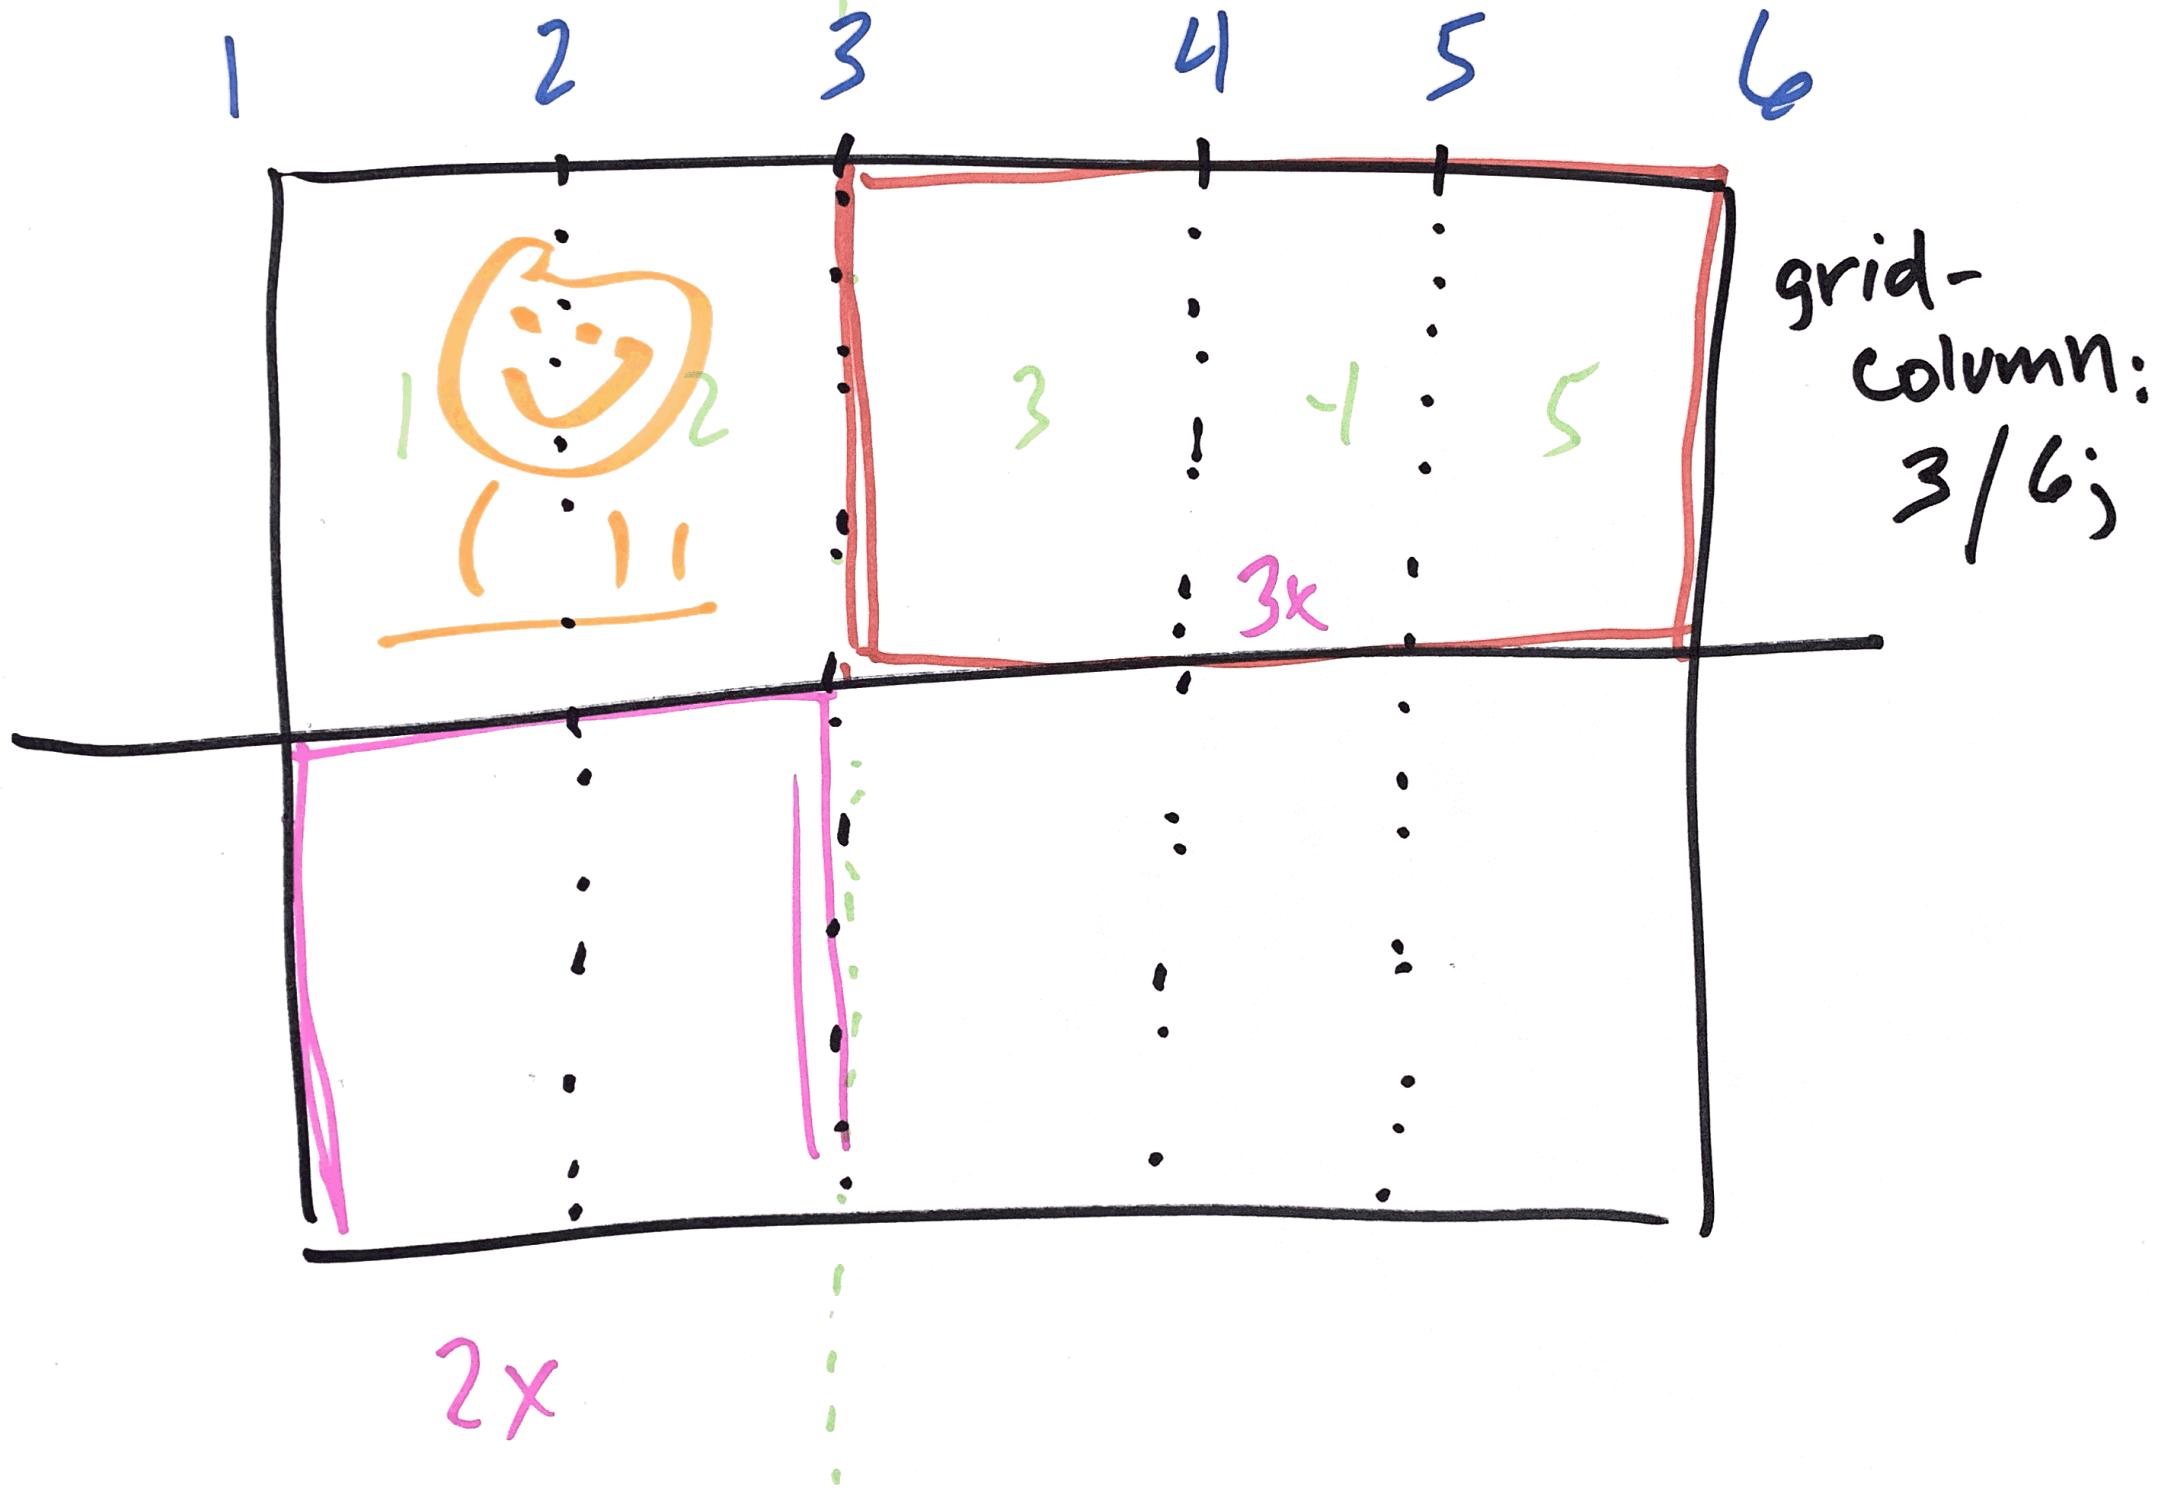

FOR  
CONTENT

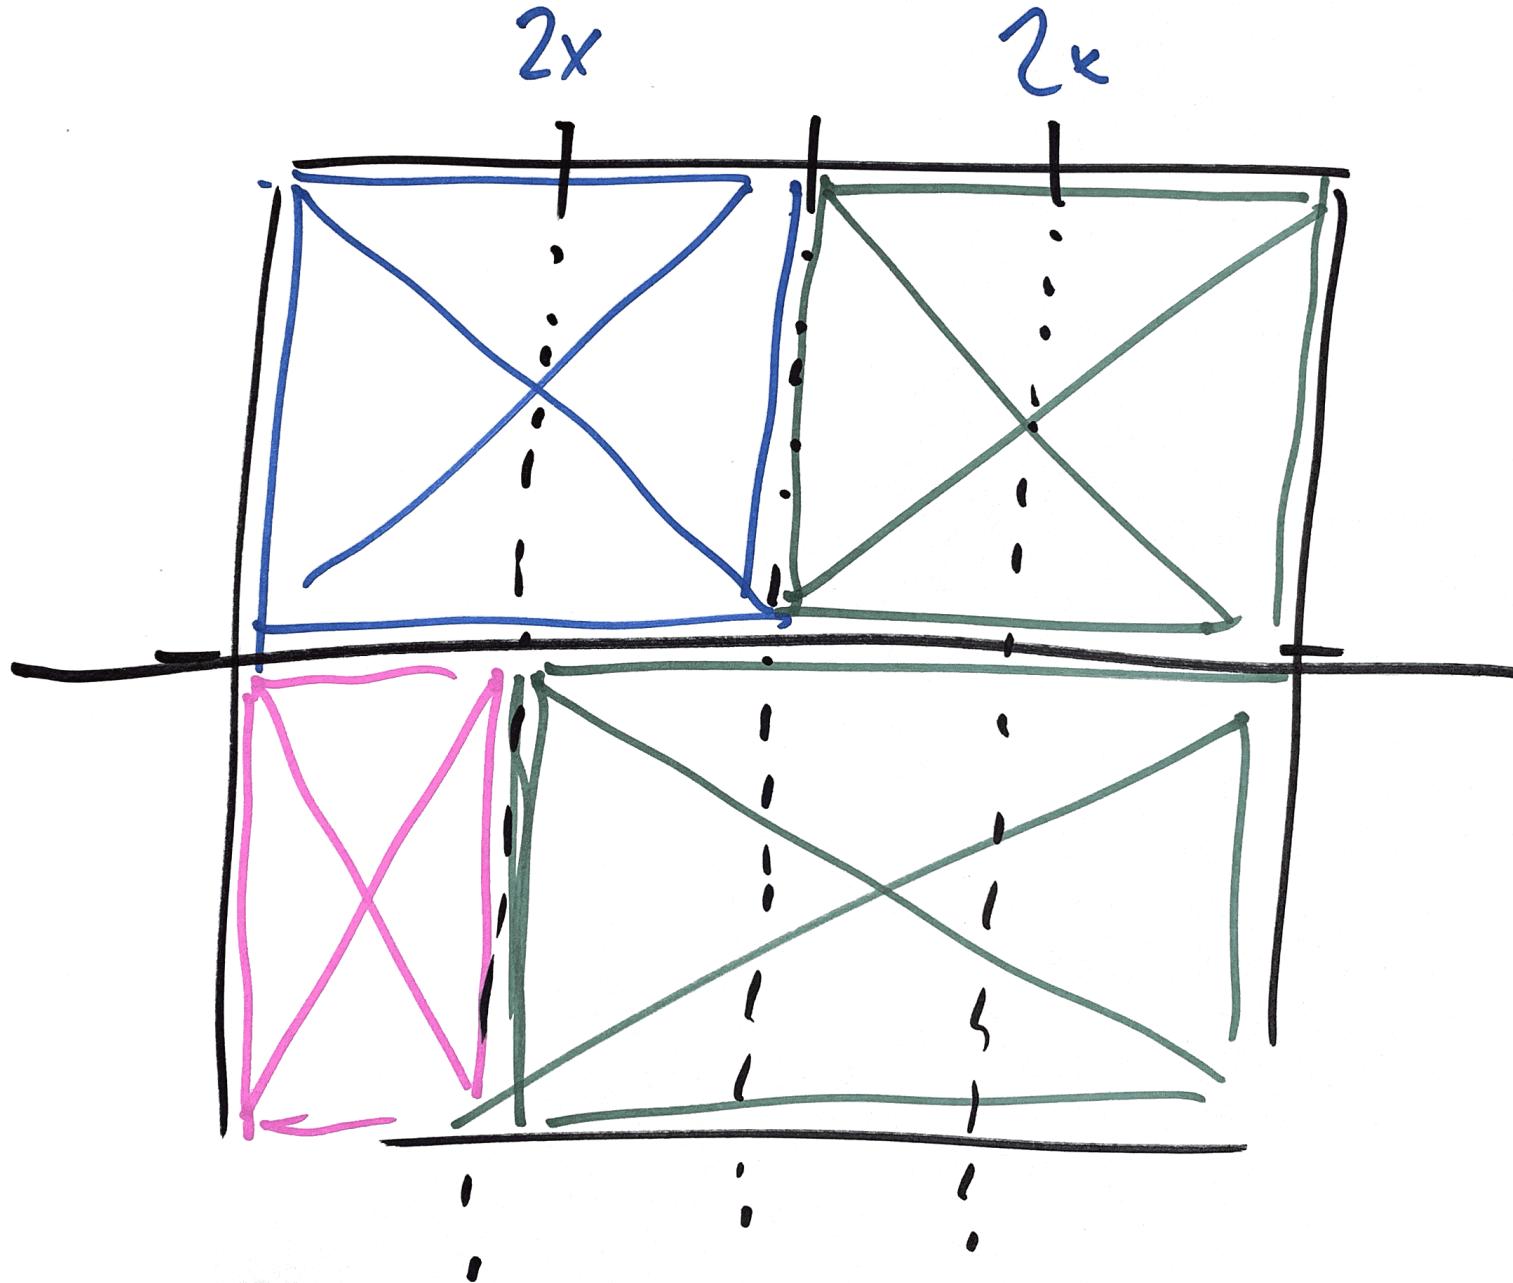

`display: grid;`
